LCEMS Continuing Education Program

RE: **Continuing Education – January 2011**

In the month of January class time will be spent on toxicology to include a review of the LCEMS Overdose/Toxic Ingestion protocol and common street drugs. We will once again incorporate “real-time” scenarios in the skill stations covering the following:

- Toxic Ingestion
- KING LTS-D / EZ-IO
- STRYKER Power-PRO XT (Power Cot)

I ask the you please prepare yourself for class by reviewing Tab 900: Section R (Overdose/Toxic Ingestion). I hope you all are enjoying your winter break from continuing education. Have a joyous **Holiday Season!**

As always, if you have any questions or comments, please feel free to contact me via e-mail or phone. I look forward to seeing you in 2011.
