RE: **Continuing Education – April 2012**

During the month of April I will try to address our ongoing narcotic shortage, and lay out our new policy and procedural requirements for inventory and control. Paramedics will be assigned pin codes for Knox Box access and protocol revisions will be discussed.

The remainder of class time will be spent in review of “Medical Emergencies” using a case-based approach for assessment, treatment and transport considerations. As always, if you have questions, comments or concerns do not hesitate to contact me.
