SUBJECT: **Continuing Education – June 2012**

In the month of June I will present new information on temperature monitoring with the LP 15 and the use of esophageal probes. That being said, there will also be updates to the cardiac arrest and ICE protocols as we move towards “Intra-arrest cooling.” The remainder of class will be dedicated to some “not-so-common” medical emergency skill stations.

As a reminder, there will be no CE offerings during the months of July and August. Classes will once again resume in the month of September. I hope everyone has a safe and wonderful summer.

I look forward to seeing you in the coming month of June. If you have any questions or comments please feel free to contact me thru e-mail or by phone.
