RE: Continuing Education Classes – **June 2013**

With the summer months and “Trauma” season approaching, the month of June will be dedicated to the assessment and management of traumatic injuries. With a small lecture component planned, the bulk of class time during the month will emphasize “hands-on” training. That being said, it is our intent to have skills stationed outside as weather permits. Please dress accordingly as scenarios will have simulated patients positioned on the lawn, sidewalks, pavement, and inside vehicles.

Please take time to review your trauma assessment and treatment protocols before coming to class to help better prepare you.

With no CE classes scheduled during the summer months, and ACLS coming up in September, we will distribute ACLS textbooks at the end of each class. ACLS textbooks remain property of LCEMS and will be turned back in upon completion of training in the month of September.

If you have any questions or comments please feel free to contact me. I look forward to seeing all of you in the month of June.
