TO: ALL LUCAS COUNTY PARAMEDICS

FROM: Jonathon Ziehr, NRP
Lucas County EMS Continuing Education Program Administrator

DATE: February 10, 2016

SUBJECT: Continuing Education – March 2016

It is with great excitement that Lucas County EMS will be introducing a new system to allow for rapid and accurate medication delivery for the pediatric patient. In our continued effort to strive for **Excellence in EMS**, Lucas County has acquired the **Handtevy Customized Pediatric Resuscitation System**. This system is a novel method to rapidly calculate and assist in the delivery of pediatric drug dosages using Lucas County EMS Protocols.

In preparation for March CE, I ask that you do the following:

- Visit www.handtevy.com and begin to familiarize yourself with the material that will be presented in detail during March CE.
- Download the (Handtevy) App to your smartphone. We will assist with the App logon and review the App during March CE.

If you have any questions or comments, please do not hesitate to contact me. I look forward to seeing all of you again during the month of March.
