

LUCAS COUNTY, OHIO

REQUIREMENTS FOR INSTRUMENTS

OF

CONVEYANCE IN LUCAS COUNTY

Pursuant to Ohio Revised Code (ORC) 319.203, the Lucas County Auditor and the Lucas County Engineer have adopted written standards for the conveyance of real property.

The purpose of these standards is to allow for the efficient operation of the Lucas County Tax Map Department, to maintain an accurate record of property ownership and parcel identity, and to collect an accurate conveyance fee required by Ohio Revised Code (ORC) Sections 319.20 and 322.02. Therefore, it is necessary that certain requirements and procedures be met before the approval of a property transfer.

Tax maps are maintained by the Lucas County Engineer's Office (Tax Map Department) on behalf of the Lucas County Commissioners for the benefit of the Board of Revision and the Auditor. The maps are kept in the Auditor's Office (ORC 5713.09).

The County Recorder cannot record deeds unless they are first endorsed as transferred by the Auditor (ORC 317.22).

The review process and the approval of a transfer DOES NOT insure clear title to a property. The Lucas County Auditor's Office and the Lucas County Engineer's Office bear no liability for any title problems that the reviewed descriptions may cause.

It should be understood that not all situations can be covered by these standards and requirements. When these situations arise, they will be addressed on a case-by-case basis and interpreted by the Auditor's and/or Engineer's staff.

This document is divided into two sections. Section One is the Auditor's Office Requirements and Section Two is the Engineer's Office Requirements.
