Hi Amy. When we eventually go to purchase that Adobe software for Marty, do you know what fund that will come from?

Chris

Do I need to be online to access my desktop apps?

No, the desktop applications in Creative Cloud, such as Photoshop and Illustrator, are installed directly on your computer, so you don't need an ongoing Internet connection to use them.

An Internet connection is required the first time you install and license your apps, but you can use the apps in offline mode with a valid software license. The desktop apps will attempt to validate your software licenses every 30 days.

Annual members can use the apps for up to 99 days in offline mode. Month-to-month members can use the software for up to 30 days in offline mode.

As a Creative Cloud member, am I required to install an upgrade to a desktop application when it becomes available?

No, you can continue using your current version of the product as long as you have an active membership. You have flexibility on when and if you install a new release.

Can I use the software I download from Creative Cloud on more than one machine?

Yes. Creative Cloud desktop applications can be downloaded and installed on multiple computers, regardless of operating system. However, activation is limited to two machines per individual associated with the membership. See the [terms of use](#) for more information. Learn how to [deactivate](#) a Creative Cloud license on a machine.

Am I required to store my files in the cloud?

No, you can save your files wherever you choose (on your local hard drive, mounted drives, thumb drives, and so on). However, your Creative Cloud membership comes with cloud storage that you can choose to take advantage of for backups, link sharing, folder collaboration, and more. The desktop application makes it easy to synchronize your local files with your Creative Cloud storage. So if you choose to sync your files to Creative Cloud, you'll still retain a local copy of your files.

What happens to my files in the cloud if I cancel or downgrade my membership?

Your Creative Cloud files are stored on your desktop as well as on the Creative Cloud servers. If you cancel or downgrade your paid membership, you will still have access to all of the files in the Creative Cloud folder on your computer and via the Creative Cloud website.

Your account will be downgraded to a free membership, which includes 2GB of storage. If you're using more than 2GB of storage, you will not be able to upload any new files to the cloud until the amount of online space used in your account drops below your allotted amount.

If you are over your storage limit, you have 90 days to reduce your online usage or you may lose access to some or all of your files saved on the Creative Cloud servers.
