MANDATORY INFORMATIONAL MEETING

Wednesday, February 22, 2017

10:00 a.m.

One Government Center, 1st Floor Conference Room

INTRODUCTION

The Lucas County Land Bank is a quasi-governmental organization whose mission is to strengthen neighborhoods and preserve property values by returning vacant, abandoned, and tax-delinquent properties to productive use. In our six years of existence, the Land Bank has been able to repurpose over 2,000 residential homes, vacant lots, and commercial/industrial properties.

The Land Bank is looking for qualified contractors to complete lawn maintenance on Land Bank owned properties (those with and without a structure). The Land Bank will award annual contracts to multiple contractors and will distribute the work based on geographic area, contractor capacity, or in any manner that best accomplishes the work. Contracts are to be for one year, with the option to extend for additional one-year periods, if so desired by both parties. A contract for services does not guarantee that the contractor will receive a specific amount of work.

The Land Bank expects each contractor to understand its mission, its Policies & Procedures, including its Purchasing Policy, and its likely inventory. The Land Bank owns these properties in order to help facilitate nuisance abatement needs and to ultimately place the property back into private ownership and back on the tax rolls.

Toledo regional companies with demonstrated experience and capacity in lawn maintenance are invited to respond to this request. The Land Bank encourages participation from MBE/WBE/EDGE contractors. After the deadline, the Land Bank will review and score all submissions and select a core group of qualified lawn maintenance contractors. The Land Bank reserves the right to rescind and republish this request without award if no companies are deemed responsive.

SCOPE OF WORK

The Land Bank expects to contract for 7 mows a year for properties within the Lucas County limits, most within the City of Toledo. These properties will include vacant lots and lots with vacant structures on them. It is anticipated that the total number of properties will be 1400 – 2000 each year, and a contractor will be expected to consistently mow 100 – 200 properties each month during the contract season. The number and exact distribution of the properties will change each month. Contractors will be kept updated on the properties to be mowed through a monthly work order.

Mandatory Meeting

The Land Bank staff will host a mandatory meeting for all interested contractors on February 22nd. At a minimum, at least one company owner or key representative should be present and in attendance. The Land Bank staff will explain every aspect of this RFQ and the Land Bank's expectations at that time. Any questions that a contractor has will be answered at that mandatory meeting. If a question cannot be answered during the meeting, a written answer will be distributed to all attendees following the meeting.

The Land Bank reserves the right to host an additional meeting prior to the due date of the RFQ if a sufficient number of contractors have excusable reasons for being unable to attend the scheduled mandatory meeting. If a contractor cannot make the February 22nd meeting, the contractor should notify the Land Bank immediately. Contractors should make EVERY EFFORT to attend the February 22nd scheduled meeting.

Contract Terms

- One complete mow each month – March through October
- A complete 2017 schedule will be issued at the time a contract is signed

The properties to be mowed will be between 0.1 and 0.3 acres in mostly dense residential neighborhoods in the City of Toledo. The Land Bank will group properties to contractors by geographic area and make efforts to ensure that the work order fairly compensates a contractor for the work requested.

Service Expectations

- Mowing must include all grassy parts of each property (including the tree lawn)
 - Property line to property line for vacant lots
 - Front, back, and sides of properties with structures
 - All properties left in a clean and orderly state
- Grass should be mowed to a height of 3.0 inches
- Lawns must be trimmed and edged as necessary for a neat appearance

- Mowing must include removal of garbage and brush prior to mowing
- No clippings may be left on the sidewalks or blown into the street
- If a site has been recently re-seeded and no grass is growing, the contractor must still cut any areas that are longer than 3.0 inches, including back areas of the lot or the tree lawn.

NOTE: If heavy debris, heavy brush, tree limbs, unexpected fences, unsafe conditions, neighbor disputes, or other access issues prevent the contractor from mowing and edging a parcel, the contractor must notify the Land Bank immediately and in no event later than the due date of the current work order. The notification must be done by e-mail and include photos and a description of the problem (whenever possible).

Billing

The Land Bank will pay a fixed fee of \$30 per actual mow at each property, regardless of the size or the location of the property. Each month during the growing season, a qualified contractor will receive a work order identifying each parcel of land to be mowed and edged by parcel AND address. Contractors who cannot identify the property by address should utilize Lucas County's AREIS system to identify the particular lot boundaries for that parcel. It will be the sole responsibility of the contractor to identify the exact parcel boundaries in order to complete the ordered work. The contractor will be required to list the actual date during the work order period that the parcel of land was mowed and edged. A SAMPLE WORK ORDER is attached to this request for reference.

Contractors must return their completed work order and invoice to the Land Bank no later than Noon on the date due on the work order.

Monthly Audits

After a contractor returns a completed work order each month, Land Bank staff will visit properties in the work order and audit the contractor's work to ensure that it meets the contract's requirements. A significant number of properties will be chosen each month, including properties where complaints have been made or prior problems occurred. If problems are found following this audit, the Land Bank will notify the contractor and seek improvements. No monthly work order will be paid until a satisfactory audit has been completed.

Subcontracting

Qualified contractors who receive a work order are prohibited from subcontracting any of the work without the written permission of the Land Bank, which must be granted before any work begins. If a contractor will be unable to complete between 100 – 200 mows each month without subcontractors, the contractor should consider that carefully before submitting a proposal under this request.

Citizen Disputes

If a citizen disputes a contractor's work, becomes angry in the field, or otherwise interferes with the work order, the contractor must act professionally at all times. Even if the contractor is 100% correct, the contractor must provide the citizen with a Land Bank contact card (to be provided upon signing a contract) and leave the site. The contractor must immediately report the incident to the Land Bank with photos and a written explanation (whenever possible). The Land Bank will issue further instructions to the contractor following review.

Disqualifications for Performance

Contractors may be excluded from future work and may be liable for costs associated with current work if any of the following conditions occur:

- Failure to timely complete the assigned work order
- Failure to mow all portions of the parcel of land, including the tree lawn and backyard
- Failure to resolve issues discovered after a monthly audit
- Failure to notify the Land Bank when heavy debris prevents mowing
- Failure to notify the Land Bank when other circumstances prevent mowing
- Blowing or leaving clippings on the sidewalk, the street, or adjacent properties
- Failure to communicate regarding damage
- Subcontracting work without the written permission of the Land Bank
- Allowing illegal activity on the site
- Causing injury to workers, bystanders, or property during the mowing work
- Failure to abide by the Land Bank's contract

Prohibitions / Exclusions from Work

The Land Bank reserves the right, in its sole discretion, to amend, suspend, terminate, or reissue a contract at any time for non-performance or for any activity by the contractor which is inconsistent with the Land Bank's mission, goals, Policies & Procedures, or Purchasing Policy.

PROPOSAL REQUIREMENTS

Please provide the following in the proposal:

1. An updated Contractor Pre-Qualification Form [attached to this Request], including documentation of required insurance and worker's compensation coverage (if not already on file). A contractor may contact the Land Bank prior to submitting an RFQ proposal for the sole purpose of determining if the current Contractor Pre-Qualification Form and other required documentation on file is sufficient.
2. Experience
 - a. An explanation of your company's experience mowing between 100 – 200 properties per month.
 - b. An explanation of any prior mowing work with the Land Bank.
 - c. An explanation of any prior lawn maintenance work with a public entity at a high volume of properties.
 - d. A list of the primary zip codes in which residential mows have been completed by the company in the past two years.
 - e. Contact information (address and phone) for at least three local references from companies that have hired you to perform mowing work.
3. Capacity
 - a. An explanation of the number of full-time, part-time, and seasonal employees your company will directly employ for this work.
 - b. A list of the equipment you own or will lease (please identify which) and will have available to complete this work.
 - c. An explanation / timeline of a typical day for your company as you perform this work (what time will you start; how many crews will you use; how many properties will you mow; how will you clean and finish each site before moving to the next; will you talk with citizens and neighbors before mowing?)
 - d. A list of other likely companies and property owners you will be working for in the coming season and the number of properties you will mow for each.

EVALUATION AND SCORING

In evaluating responses, the following will be reviewed and scored:

Experience – 40 Points

- Has the company demonstrated experience mowing between 100 – 200 mows per month?
- Has the company demonstrated experience working in Lucas County's core neighborhoods mowing primarily residential property?
- Has the company provided three local references from organizations that have hired the company to provide this kind of work?
- Has the company previously worked with the Land Bank and has the Land Bank rated their performance as competent?
- Has the company previously worked with other public entities completing a high volume of similar work?

Capacity – 40 Points

- Does the company have the capacity to meet the scope of the work required, including personnel and equipment?
- Has the company demonstrated through its proposed typical day timeline that it has considered all of the factors necessary to complete this work to the Land Bank's satisfaction?
- Does the company have the time and availability to complete this work to the Land Bank's satisfaction given the scope of the work to be performed for other clients?

Compliance – 20 Points

- Does the company have the necessary insurance coverage, licenses, workers compensation coverage, and has the company documented such to the Land Bank?
- Did the company attend the mandatory informational session on February 22nd (reduction of 15 points if non-attendance)?

All timely submissions will be scored by three Land Bank employees individually and averaged for a final contractor score. The contractors receiving the highest scores will be qualified under this request in the complete discretion of the Land Bank.

Contractors who have previously been disqualified from Land Bank work in writing for unacceptable performance may not be scored, even if a timely submission is received.
