Wood Preservatives

* *Latex Paint : \$1.00 /gallon or under container; \$5.00/ 5 gallon container*

Fluorescent Bulbs: \$1.00/bulb

How do I safely transport these hazardous materials?

Leave materials in original container. Tighten caps & lids and pack containers in sturdy, upright boxes & pad with newspaper. Sort & pack separately. NEVER MIX CHEMICALS. Never smoke around or while handling hazardous materials.

*Latex paint is accepted, however, it is not hazardous and can be disposed with regular trash, if solidified. Cat litter, sand, saw dust or soil can be used to solidify latex paint. A box lined with a trash bag or partially filled paint cans can hold the solidified material. If paint cans are used, leave lid off so waste hauler can see the paint is dry.

ACCEPTED E-WASTE MATERIALS: No Cost
